

Volcanic Wonderland

On this tour, specially transformed 4x4 Super Jeeps/trucks bring you on the discovery of the enchanting volcanic wonderland of the Reykjanes Peninsula. Close to Reykjavík, this mystique place allows the imagination to flow free while driving through the vast lava fields with its strange colours and rock formations. The geologically young peninsula offers sights of lava craters, black lava fields covered with moss and lichen as well as volcanic mountains, boiling mud pots and a large lake which harbours a monster, maybe.

Pick up time: 08:30 – 09:00

Min. 4 passengers
