

## Glacial vistas – Langjökull glacial tour in a super jeep/truck

Including snowmobiling on Iceland's second largest glacier!

The most beautiful sights of West Iceland are featured in this popular day tour. We drive through Hvalfjörður fjord to the Borgarfjörður district where we'll visit Deildartunguhver, Europe's most powerful hot spring. We drive further inland to the Hraunfossar and Barnafossar waterfalls and on through the Húsafell woodlands.

At Húsafell we leave the main road and take the highland trail to Iceland's second largest ice field, Langjökull glacier.

On the glacier you'll have the opportunity to go for an hour-long guided snowmobiling tour.

On the way back to Reykjavik we drive through the Kaldidalur valley, Iceland's highest mountain track on to Þingvellir National Park which is known for its exceptional beauty and historical importance.
